

Administration of Stock Opiate Antagonist

The school district may acquire, maintain and dispense to schools within the district, a supply of stock opiate antagonist. The school nurse and/or other staff members, as may be designated by school administration, may administer stock opiate antagonist to a student, staff member or person whom the school nurse or assigned personnel, in good faith, believes is experiencing an opioid overdose.

The district shall implement a plan based on guidelines from the National Association of School Nurses and Wyoming Department of Health.

The school district's plan shall be made available on the school district's web site or the web site of each school within the district.
